*Expiration date: April 7, 2027*

### Scope

TRUSTe, the Assurance division of TrustArc, Inc. have reviewed practices that govern IoT Product Line (including Tuya IoT platform, Tuya Cloud, Tuya Smart App, Smart Life App, other OEM branded App, and Tuya API/SDK) of Tuya Global Inc. ("Organization") as of April 7, 2026 against the CCPA Controls ("Controls"). These Controls are based on the mapping of the CCPA, to the [TrustArc Privacy & Data Governance \("P&DG"\) Framework](#). The Controls focus on measures for demonstrating that the processing of personal information conducted by Tuya Global Inc. is performed at a control effectiveness level consistent with the Controls. The Controls cover the following areas aligned with the **BUILD, IMPLEMENT** and **DEMONSTRATE** Standards set forth in the [TrustArc Privacy & Data Governance \("P&DG"\) Framework](#), for establishing, maintaining, and continually improving adherent data protection practices.

### Inherent Limitations

Because of their nature and inherent limitations, practices-level measures of the Organization may not always operate effectively to meet the applicable Controls. Furthermore, our findings herein are subject to the risk that the Privacy Practices, or any component of the Organization's practices, may change or that practice-level measures implemented by the Organization may become ineffective or fail.

### Findings

In our opinion, in all material respects, based on the representations made by relevant personnel and supporting evidence of practices-level measures identified in Tuya Global Inc.'s CCPA Validation Assessment:

- The applicable practices-level measures as further described in the accompanying CCPA Validation Report have been implemented as of April 7, 2026.
- The measures described in the CCPA Validation Assessment were suitably designed to provide reasonable assurance that the Controls would be met if the practices-level measures operated effectively as of April 7, 2026.
